

#TechforGood Initiative

Help Us Support Underprivileged Families during Covid-19

As we grapple with COVID-19, TWF is committed to serving our community of underprivileged families. Access to technology is a major challenge. Without devices at home, children are unable to access online tools and resources outside of school hours, and will not be able to access online classes should schools move back to virtual classes.

ABOUT #TECHFORGGOOD

In collaboration with Hong Kong Association for Computer Education (HKACE), we have already donated over 400 second-hand portable devices such as laptops or tablets to underprivileged families. Help us make it to our 500 device goal!

WHY?

Equipped with a solid education, these children have the opportunity to improve the lives of their families and contribute to building a brighter, more equal future for Hong Kong.

SUPPORT

But we won't be able to help these families on our own. We need your help to make this happen. We hope you will consider joining this vital project for our community.

There are two ways to support this initiative:

1. DEVICE DONATION: To facilitate distribution to schools, batches of 25-50 devices are requested.
We accept pre-used laptops and ipads / tablets – meeting the specifications below

2. FINANCIAL SUPPORT: Provide financial support to cover our coordination costs for this outreach project.

RECOGNITION

As a token of our appreciation for your contributions to this community outreach project, TWF will widely recognise your generous support in our social media channels and in our Connect e-newsletter.
